EDUCATION

University of Waterloo | *Bachelor of Software Engineering (Sept 2021 - Apr 2027)*

Relevant Experience

UW Imprint | *Sept 2026 - Present*

Graphic Designer

- Designed page layouts for news articles and features and created custom illustrations to go with them, making each story easy to read and scan.
- Worked with writers and editors to fit each layout to its article and the paper's style, so pages were ready for print every issue.

UW Animusic Ensembles | *Sept 2026 - Present*

Marketing Coordinator

- Promoted club concerts and events by illustrating posters and making social media posts, giving each event its own look.
- Designed merch such as sticker sheets and keychains by illustrating characters from the music the club performs, creating products to sell at events.

UW Crafts4Charity | *Feb 2026 - Present*

Graphic Designer

- Illustrated posters and social media posts for club events by following the style guide and theme set by the lead designer each term, keeping every post consistent.
- Shared drafts with the lead designer and club members and used their feedback to refine each design.

Waterloo Quant Club | *Sept 2025 - Present*

Designer

- Led two rebrands by redesigning the club's overall look and design system, giving the club one consistent style across social media, posters, and the website.
- Designed social media posts, posters, and website pages for workshops, networking events, and trading competitions, keeping every event on brand.
- Designed merch such as stickers and a custom playing card deck by turning the club's branding into print-ready artwork.

idekCTF | *Oct 2022 - Aug 2024*

Graphic Designer & Illustrator

- Designed posters, website graphics, sponsor materials, and merch for a yearly cybersecurity competition by building each year's look around a theme.
- Explored several design directions for each year's theme, then refined the chosen one into the final look.
- Designed merch by adapting illustrations to different print sizes and formats, so files were ready for production.

SKILLS

Design: Figma, Procreate, Adobe InDesign, Canva
